ONE DOLLAR AND FIFTY CENTS A YEAR IN ADVANCE

OPENING OF THE PUBLIC SCHOOL OF BARBOURVILLE

The School Board of Barbourville has set Monday, September 6th as the date for the opening of the Public Schools.

The prospects seem very good for the school year. It is to be hoped that all our citizens will give their instant loyalty and deepest interest to our one Public School.

The text books are to remain the same as last year.

AFTER MORE HARLAN MINES

The sum of \$2,600,000 is reported to have been offered by the Henry Ford interests for the Creech Coal Company's operations on Wallins Creek, Harlan County.

This offer by the Ford interests is indicative that the millionaire is going more extensively into the coal business in Harlan County, whether or not he gets the Creech mines. These mines are near the Banner Fork operations recently purchased by Ford for \$1,500,000.

It is stated that the Fords are planning to make their own iron and steel and that these big coal mines are needed to furnish coal with which to run the five tremendous blast furnaces which are proposed and one of which has already been constructed. Many more millions of the auto manufacturers millions may be expended in the Harlan fields to secure coal for the other five blast interests and the various factories controlled by the Detroit King.

The Banner Fork operation is said to produce only twenty per cent of the coal required for the gigantic industries of Henry Ford, and it is said that in addition to the Creech Coal Company's mines, other mines in this field are desired.— Harlan Enterprise.

WOMEN ARE NOW CITIZENS

By the action of the Tennessee Legislature passing the Susan B. Anthony suffrage measure, the women of these United States become voters in any election which may be held. Tennessee is the thirty-sixth state in the Union to ratify and the Secretary of State will now declare the amendment to the Constitution legally carried.

There are some who await the result in fear and trembling, but we do not anticipate that their fears are well ground. The world moves and since women have become an important part in industry, and moreover, since she handles the pocket book of the country, it is only just that she should have a word in the things that affect her and her family.

We believe that the old stock argument that the home will suffer is nonsense. Rather, we believe that home conditions will improve. As it is we leave most of the questions on sanitation and the schools to the women. We can safely leave tariffs, profiteering, foreign wars and the like to their judgment.

We are glad to welcome them into the status of full citizenship which they deserve and will honor.

"Let your first aim be to serve rather than to get."

CHISTER PHELPS CONVICTED

Chester Phelps, of Laurel County, accused of the murder of Fred C. Fields, of Hazard, Perry County, received a life sentence in the penitentiary on Thursday morning.

Commonwealth Attorney Snyder, Judge B. B. Golden and County Attorney J. S. Golden acted for the prosecution and Attorney R. N. Jarvis defended the prisoner. The evidence was purely circumstantial, but the prosecution traced the movements of the prisoner so closely that the jury had no option but to convict.

Fields, who had just been turned loose from army service, was shot thru the head and his body was found by the C. & V. R. R. bridge near Corbin, but in Knox County.

The trial of Bradley Smallwood and Milford Lawson, accused of complicity in the murder, is now proceeding.

BAKER

We greatly regret to announce the death of Mr. C. H. Baker, of New York, which occurred suddenly on Wednesday, Aug. 25th. Mrs. Baker is in Barbourville on a visit to her father, Capt. Wm. McDaniels, and the remains are being shipped to this city for interment.

Mr. Baker formerly lived in Barbourville and is a brother of W. M. Baker. His wide circle of friends will be shocked to hear of his passing and will extend heartfelt sympathy to the bereaved wife and relatives.

GARAGE FOR BARBOURVILLE

An important bit of news this week is that Messrs. Sawyer A. Smith and Guy L. Dickinson have acquired the Vermillion lot on Knox Street from Sam Cawn and will form a corporation for the erection of an absolutely fireproof garage to cost at least \$25,000. The lot on which the garage will stand is 100x140 feet and the capacity will be 180 cars. This garage will be built of steel, concrete and brick and will not only be one of the finest in the State, but will be absolutely fireproof in construction.

It is not generally realized what the bithualized highway will mean to this city in the matter of auto travel, except by those who have stood on one of the National highways and watched the multitude of cars whiz by and the Knox Garage, as it will be called, should be a big money maker for the stockholders.

Besides handling a full line of supplies, the garage will sell cars and do any business connected with the automobile business.

We are glad to welcome this project which is another evidence that Barbourville has citizens who mean to keep it on the up-grade of progress.

Mrs. D. Vincent and Mrs. Lyman R. Benjamin left Sunday on a visit to their son and brother, Dr. H. C. Vincent, Joplin, Mo., and Mrs. G. W. Brewer, of Sydney, Neb., their daughter and sister. They expect to visit Denver and other points in the west.

UNION COLLEGE, GYMNASIUM ABOUT COMPLETE

Union College gymnasium is completed so far as the builders are concerned. When Gus Hauser has put in the plumbing, much of which is already installed, Union College will own a gymnasium of which it may well be proud, as may the citizens thru whose help it was constructed.

It is a splendid structure, with a fine floor space for games, an up-to-date running track, swimming pool and shower baths. In some respects it is said to be superior to the gymnasium at the University. What U. C. does is done well, as Dr. Franklin and the Board have both faith and foresight at work for the good of the institution and for this thing they have no option but to convict.

MRS. HUDSON MOSTESS

One of the prettiest social affairs of the season was the afternoon reception given on Wednesday of last week by Mrs. Walter Scott Hudson in honor of Miss Lallah Johnson, who is to be married Aug. 30th to Mr. Harry Ricketts, of Columbus, O.

The color scheme of pink and green was effectively carried out in a profusion of pink daffodils, cosmos, roses, ferns and asparagus which decorated the entire lower floor.

Mrs. Sawyer A. Smith assisted the hostess in receiving the guests and Miss Gladys Johnson presided at the punch bowl.

Mrs. Brownlee and Mrs. Chappelle were kept busy arranging Kodak pictures of the guests in a lovely hand-painted book which the hostess presented to the bride to be together with a list of "Don'ts" for the bridegroom donated by those present.

After an hour's participation in sense, nonsense and a contest entitled "The Proposal," (the winner, of course, was the bride-to-be, and was awarded a box of lovely stationery) the guests repaired to the dining room, which was especially attractive. The prevailing color was carried out both in decorations and refreshments with charming effect.

The beautifully appointed table was covered with a handsome cloth of tatting on which was a bowl of pink cosmos and ferns surrounded by pink baskets filled with dainty and delicious mints.

Mrs. Miles, Golden and Chappelle assisted the hostess in serving refreshments of ices in pink and green with heart-shaped cases.

The invited guests were Messrs. Brownlee, Chappelle, Guy Dickinson, T. B. Tinsley, Leslie Logan, Bassett Minton, Ray Newitt, Hiram Owens, Andrew Decker, Jr., James Golden, James Miller, Milo Richards, Dan Talbot, Edward Faulkner, James Jarvis, Sawyer Smith, Dan Herndon, Misses Lallah Johnson, Gladys Johnson, Myra Amis, Nancie Vicker, Lily Albright, Anna Ballinger, Lucy Ballinger, Roberta Cole, Nola Minton, Nancie Faulkner, Fanny Faulkner, Emma Morris, Gertrude Black.

Miss Roberta Allen Sandusky, of Lexington, is the pleasant guest of Miss Gertrude Black. Miss Sandusky was formerly one of the faculty at Union College and has many friends who are glad to welcome her back to Barbourville.

TELLS NECESSITY OF CARE OF THE EYES

Optometry is the scientific method of examining the powers and visual conditions of the eyes, together with the strength and poise of their related muscles, and giving the proper assistance, exercise or lenses, to overcome their defects.

Optometry today stands forth as a specialized profession, recognized by law, for the measurement of the powers of vision and the adaptation of lenses for the aid thereof.

The optometrist finds the defect in the refraction of the eyes and corrects the same with proper glasses, not in the hope that he may "merely help" the patient to see better, or drive headaches away, for he "finds the cause" of the trouble and corrects it. In correcting the cause he incidentally invites the disappearance of headaches, nervousness, dizziness and many disorders resulting from defective vision. Forty-six states and several provinces in Canada have laws regulating the practice of optometry by rigid examination.

Some people are under the impression that optometry is a branch of medicine, but it is as separate and distinct as dentistry; more so, in fact.

There are about 60,000 known irregularities of the eye that require glasses for their correction. Optometry as practiced today, is a twentieth century science. It is photographic, inasmuch as it deals exclusively with light and bears no relation to medicine or surgery.

Examining eyes for refractive errors and fitting glasses require special training and years of experience are necessary to correctly diagnose and relieve the many reflex troubles arising therefrom.

Our eyes produce the major percentage of nerve troubles. It is not necessary to be half blind to suffer from eyestrain; many persons who apparently see perfectly are the greatest sufferers.

Eye-strain is a most insidious and, in some respects, a most dangerous affliction. It is not dangerous in the sense that it means loss of vision. Many people go thru life seeing well enough, yet afflicted with eye-strain to a degree that makes life a prolonged misery. The trouble is that symptoms of eye-strain are not always located about the eyes. They often are in the nature of what is called "reflex." On the physical side unsuspected eye-strain frequently is the sole cause of chronic indigestion, headache and occasional attacks of dizziness.

On the mental side it may make its influence felt even more mischievously. Those afflicted may have no obvious symptoms of eye-strain. They find it hard to concentrate the attention. The head tires quickly when they are trying to think. The subject is nervous and irritable. All this impairs efficiency and sends earning power far below what it ought to be. One so afflicted is often difficult to get along with at home or in business.

When, as sometimes happens, unsuspected eyestrain makes one so overwrought that he cannot sleep, then his plight is miserable indeed.

Many a so-called "dull child" is so because of some visual defect which is sapping his energy. Teeth, nose, throat, stomach and even the feet all receive due attention, but many children are sent to school without the least attention to the eyes—the main avenue to education. When the younger falls behind in his studies the blame is laid upon everything but the real cause. The child is called stupid or the teacher is blamed for his backwardness. Seven out of ten children have defective eyes. Give them a chance. During the last few years the school boards have done excellent work in this line, but the work has necessarily been slow and incomplete. It must have the co-operation of both the teacher and parents.

LADIES' AID

The Ladies' Aid of the Christian Church met at the home of Mrs. A. Y. Anderson Friday, August 20th. Some very important business was transacted. After the business session Mrs. Anderson served ice cream, cake, lemonade and grapes.

On account of the Fair the next meeting will be the second Friday in September at the home of Mrs. Archer.

ARTS AND CRAFTS AT STATE FAIR

Altho big letters designate the section at the State Fair set aside for the exhibition of fancy work, sewing, cakes and pies, as the "Women's Department" many articles entered in competition with wares of previous prize winners will be the fruits of the labor of men this year. These men are former soldiers who, wounded in the war, learned to be expert crocheters and knitters while in hospital.

Carl C. Stephens, an overseas veteran who carries permanent scars from the battles of the Argonne, is the first man to enter more than one article of handicraft. He has entered a handsome embroidered sofa pillow cover and a knitted bedspread.

Victor Longstreet, a Louisville boy of sixteen, has entered a painting.

Miss Addie Ditto, superintendent of the women's department has received more than a dozen requests for entry blanks from former soldiers and her mail is flooded with entries from women in all parts of Kentucky.

This year two novel sections of the Women's Department will bring together May and December, one section being for work done by women more than 65 years of age and the other for girls younger than 13 years.

The arts and crafts department has been enlarged greatly to take care of the many exhibitions which have been promised. In this department is shown basket work, woven work such as towels, rugs and other household articles, lampshades, posters, place cards, photography, sketches and portraits in oils and water colors and hand painted china.

The section for women more than 65 years of age will embrace exhibitions of crocheted slippers, table mats, lace and shawls; knitted sweaters, socks, gloves and mittens and embroidery of all kinds.

The section for children under 13 years old will be for exhibits of dressed dolls, aprons and small articles of wearing apparel; crocheting, knitted work and button holing.

To the Citizens of Barbourville: The Court and School Board have selected and appointed a trustee for the City of Barbourville whose duty it will be to see that all children of school age are attending school every day.

Fellow Citizen! Are you interested enough in your boy to see that he is in school? You are going to get yourself into deep trouble if you allow your boy to stay out of school. If your boy is caught out of school you will be taken before the Court and fined. Then the next time it occurs your son will be doubted and if it happens again you may be put in jail.

This new law is going to be put in force. Keep your boy in school.

Be an optimist. Confidence is infectious.

REGRETTABLE SHOOTING AT MANCHESTER

A most regrettable shooting occurred at Horse Creek Mining Camp Clay County, on Friday night. As a result, Carlo B. Marion, of Manchester, who was acting as marshall at the Camp is dead and Wm. McVey received a shot thru the knee.

It is alleged that McVey was suspected of being possessed of whiskey and the shooting occurred over this question.

Dr. Pennington, of London, was called over Saturday, but decided against an operation on the ground that the patient was not able to undergo the strain. He passed away Wednesday afternoon at 4 p. m.

EDITOR'S HOME TOWN Visited By Disasterous Flood

The item printed below records a flood in the home town of the editor of the Advocate. The river Lud is in most places what would be designated a creek in this country, the its water bed is never dry. It was used by the editor and other small boys for the art of broad jumping, but never, during the seventeen years he spent there did the river show any signs of overflowing, so when the cloudburst mentioned must have been one of great severity. While England gets severe storms it is unusual for lives to be lost thru overflow of its rivers.

Louth, Eng., May 31.—Twenty-seven bodies of those who lost their lives in the overflow of the river Lud have been recovered and many more are missing, unofficial estimates placing the death roll at fifty. Fifty houses were washed away and 1,000 others damaged.

CANDLING EGGS

Complaints have reached the
State Board of Health that the regu-
lations in regard to the candling of
eggs from May 15th to January 15th
of each year are not being observed.

It was estimated in 1917 that 10,
015,000 cases of eggs were lost as
food due to rotting and improper
handling. This meant a financial
loss of over \$100,000,000. The candling
of eggs by buyers and shippers
will force them on the market while
fresh and prevent the shipping of
rotten eggs and greatly reduce this
loss.

The regulations to insure this
candling can be condensed as follows:—Candle all eggs bought or
sold between the dates of May 15th and January 15th of each year.

Farmers, country merchants, huck-
sters and shippers can easily and
cheaply save eggs and money by sell-
ing them while fresh and observing
the rule that requires an egg candling
certificate in every case of eggs
put on the market.

Buyers of eggs should candle all
eggs at time of purchase. Pay only
for good, edible eggs; returning the
bad ones to the producer. Keep state-
ment of purchases showing number
of good and bad eggs in each lot.
Put candling certificate in each egg
case.

Shippers of eggs should ship as
soon as possible. See that all eggs
shipped have candling certificate in
each case.

Receivers and brokers should re-
fuse to accept any case of eggs that
does not contain a properly signed
and dated candling certificate.

At present the inspectors of the
Federal and State Food Departments
are making inspections of shipments
of eggs; and violators of the Federal
Law in interstate shipments and
of the Board of Health rulings in
interstate shipments, will be prosec-
uted.

A copy of this letter is being sent
to every prosecuting attorney in this
state with the request that prosecu-
tions to be instituted in every case
of violations of the law.

FOOD SALE

The Ladies Aid of the Presbyter-
ian Church will hold a food sale on
Tuesday of next week. You will be
able to buy all your pies and cakes
to serve your guests during the Fair.
The cookery of these ladies needs no
recommendation as their reputations
are already established.

Now the whole family can go out on a Summer evening

THE women should certainly be thankful for the automobile. It has given them a chance to see a lot more of their husbands.

they're beginning to insist on knowing what they are getting.

And the more they insist, the better it will be for us.

IV

But it has done a great deal more than that.

It has brought people closer together, given them new interests, swept away old prejudices.

What affects one man now generally affects a good many of his neighbors in the same way. And they have a better chance to get together and talk things over.

III

It's had its effect on the tire business.

When automobiles were new people were willing to buy any kind of a tire. Now

We want our customers to know what they are getting.

That's why we represent U. S. Tires—so there will be no doubt about it.

Whatever the size of your car, you know that the U. S. Tire you put on it is the best kind of tire its makers know how to make.

U. S. Tires are guaranteed for life, without any limitation of mileage.

That ought to mean something to the man who has thought about tires.

NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work
Flourishing in Small Towns
Throughout Country.

More than 37,000 graduate nurses
have been enrolled in the American
Red Cross to date and its department
of nursing is daily increasing this en-
rollment.

The department of nursing has been
authorized to maintain an adequate
reserve of nurses for the army and
navy. It will continue to supply the
needs of the United States Public
Health Service to which it has as-
signed more than 1,000 nurses in the
last year.

It will assist in establishing proper
nursing service in foreign countries
where the American Red Cross has orga-
nized hospitals, dispensaries and
schools for nurses. Courses in home
hygiene and care of the sick have been
started for thousands of women who
have never received any education in
this direction. Rural nursing which
was in its infancy a short while ago
has been put ahead at least a decade
through the work of the department
of nursing and local Red Cross
chapters.

Public health nursing has been ex-
tended to many rural communities and
now flourishes actively in hundreds of
small towns and counties. Nearly a
thousand efficient nurses have already
been assigned to this kind of work.

The department of nursing is uniting
with other organizations in a year's
campaign in recruiting nurses for
training schools, in educating the gen-
eral public as to standards of nursing
education and in showing communities
their responsibility toward schools of
nursing. It will endeavor to meet all
these needs as well as to continue the
enrollment of dietitians who will be
utilized as instructors in home dietet-
ics, in developing nutritional clinics,
and in supplying dietitians for the
United States Public Health Service
and the civilian hospitals.

The Nursing Service will continue to
offer to women and young girls the
opportunity of securing instruction in
home hygiene and care of the sick in
every community in the country. This
instruction has not only laid the foun-
dation for public health but in some
places has given impetus to the estab-
lishment of hospitals and community
school houses.

"As a community profits by the work
of the nurse," says Miss Clara D.
Noyes, director of the department of
nursing. "It is logical that the
community should be aroused to its respon-
sibility. The American Red Cross
stands ready to help in a general cam-
paign of recruiting and must have the
support, sympathy and understanding
of the medical profession as well as
the intelligent co-operation of the
people at large."

HOME SERVICE FOR EVERYBODY IN NEED

Do you know what the present day
Home Service of the American Red
Cross is?

Many people do not know that, be-
sides completing the work for ex-serv-
ice men, especially the disabled, it pro-
vides the same neighborly service to
families in general that it formerly
gave families of soldiers, sailors and
marines.

"Home Service covers a wide and
varied field," says Frederick C. Mun-
roe, general manager of the American
Red Cross. "It gives aid to families
in solving such problems as budget
planning, marketing, tiding over times
of financial stress, keeping children in
school, helping crippled children, wid-
owed and deserted mothers, children
backward in school and children in
conflict with the law. It renders service
to the homeless and transient, to
the illiterate, to tenement dwellers, to
the unemployed, and gives friendly as-
sistance and advice to foreign speak-
ing groups."

In addition to helping families in
the solution of their own problems,
Home Service helps in strengthening
the weak spots in the social life of
communities. It joins hands with oth-
ers to make communities safer, healthier
and happier.

Organizing action along lines in
which the community is already inter-
ested is one of the objects of Home
Service. It has established community
meetings, patriotic celebrations, page-
ants and picnics. Rest rooms, recre-
ation facilities, play supervisors and
moving pictures have been provided.
Through Home Service other agencies
are influenced to bring about improved
commercial amusements and better
school facilities and to promote travel-
ing libraries as well as to secure coun-
try agricultural and home demonstra-
tion agents.

If you need assistance at any time,
go to the secretary of the nearest Red
Cross chapter and describe the situation.
Your confidence will be sacredly
respected and every possible effort will
be made to aid you.

American Red Cross Roll Call.

The Fourth Annual Roll Call of the
American Red Cross will be held this
year from Armistice Day, November 11,

pay their annual dues and renew their
membership.

ANOTHER NURSE

PRAISES TANLAC

Sixteen Years of Stomach
Trouble Overcome And
She gains 20 Pounds

Mrs. Alice Minnick, who has been
a professional nurse for thirty-six
years and resides at 1815 Twenty-
third Ave., Seattle, Wash., adds her
voice to the hundreds of others in
this profession who have already en-
dorsed Tanlac.

"Since I began taking Tanlac I
have not only gained twenty pounds
in weight, but for the first time in
sixteen years I am free of pain and
enjoying good health," stated Mrs.
Minnick. "I constantly had cramp-
ing, gnawing pains in my stomach
all these years, my appetite was ex-
tremely poor and the little I did eat
caused me great distress. After each
meal my food began to ferment and
soar on my stomach almost at once,
I would bloat up with gas, and those
terrible pains would get so bad I
could hardly stand them. I became
badly run down, lost weight and my
strength, and felt so tired and worn
out all the time I could hardly get
around. I had pains in every part
of my body just about all the time
but they were especially bad in the
small of my back. I also suffered
with severe headaches and dizzy
spells and my nerves were so badly
upset I could get but little sleep
often lying awake all night long.

"I had heard so much of the good
Tanlac was doing others I decided
to try it myself, and it proved to be
the very thing I needed. I began to
improve right away, it was only a
few days before my appetite returned
and I can now eat anything I want
without having a particle of trouble
afterwards. Those terrible
gnawing pains that had troubled me
so many years have entirely dis-
appeared. I never have a headache or
become dizzy, and the pains that
were throughout my body have all gone.
In fact, my whole system has been
built up by Tanlac. I have regained
my strength so I can do my work as
a nurse, which keeps me on my feet
for hours, day and night, without a
particle of trouble. Several of my
patients have taken Tanlac and it has
proven beneficial in every case.
After what Tanlac has done for me
I can never say enough for it."

Tanlac is sold in Barbourville by
the Cut Rate Drug Co.; in Artemus
by J. G. Haskin and in Perman by
N. J. Faulkner & Co. —Adv.

THOUSANDS PROCLAIM THE MERITS OF PE-RU-NA

Read Their Letters

Mrs. Martha C. Dale, R. F. D. 1,
Cannon, Del., writes: "I am en-
tirely cured of chronic catarrh of
the stomach and bowels by PE-
RU-NA."

Mr. J. Bayer, Glendale, Oregon:
"There is no medicine like PE-
RU-NA for catarrhal deafness."

Mrs. Kate Marquis, Middleburg,
Ohio: "PE-RU-NA cured me of
catarrh of the head and throat."

Mr. J. H. Collins, Wesson, Mis-
sissippi: "PE-RU-NA makes me
feel vigorous and able to work
without that tired, weak feeling I
usually have otherwise."

Mrs. P. Ludvigsen, Austin, Min-
nesota: "I got rid of my liver
trouble and can eat anything since
taking PE-RU-NA."

Mrs. L. Hearing, 283 East 169th
St., New York City: "For catarrh
of the head and stomach, I have
found PE-RU-NA better than any
other medicine."

Mr. W. H. Edgar, 49 Cooper St.,
Atlanta, Georgia: "PE-RU-NA
cured me after I had suffered
fifteen years with rheumatism."

Mrs. Leona Dodd, R. No. 3,
Medon, Tennessee: "PE-RU-NA
is a grand medicine for coughs and
colds."

So many diseases are due to cat-
arrh and catarrhal conditions,
makes PE-RU-NA the best medi-
cine in the world to have on hand
for emergencies and general health
protection. Thousands of families
are never without a bottle of PE-
RU-NA or a box of PE-RU-NA
Tablets in the medicine cabinet.
That is the safe way.

*You can buy PE-RU-NA any-
where in tablet or liquid form.

Skin Eruptions Cause Constant Torture

Diseas, Germs Must Be Eliminated From the Blood.

Eczema, tetter, boils, pimples, ulcers, irritations and scalp eruptions, as well as all other forms of skin diseases, come from a disordered condition of the blood. They must be cured through the blood, and this explains why local treatment fails so absolutely.

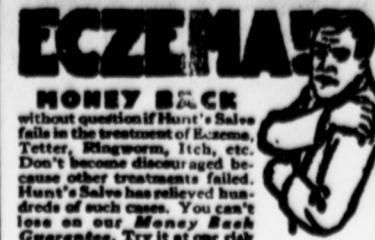

The radical and rational treatment

is to take a thorough course of S.S.S., which will rout out the disease germs from your blood, your complexion will begin to clear up and you will soon be rid of the disease as thousands of others have.

Get a bottle of S.S.S. today, write to our head physician, who will gladly give you full medical advice without charge. Address Medical Director, Swift Laboratory, Atlanta, Ga.

A TEXAS WONDER

For kidney and bladder troubles, gravel, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. If not sold by your druggist, will be sent by mail on receipt of \$1.25. One small bottle often cures. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive St., St. Louis, Mo. Sold by druggists. The teachers of the Educational Division No. 2 met Friday last at Little Lower Brush School House. The attendance of teachers and parents was excellent.

Harry A. Moore, formerly a resident of Barbourville and now of Louisville, and H. Simth, of Birmingham, Ala., are here on business this week. Mr. Moore is struck with the great improvement in Barbourville.

Judge W. M. Lewis, of Clay and Laurel, with other associates will operate mines on Horse Creek, Clay County. Judge Lewis was formerly Circuit Judge of Knox County.

Judge J. Smith Hayes, of Winchester, Ky., who formerly practiced law and held the office of Mayor of Barbourville, is here this week with Mrs. Hayes on court business.

Thru the efforts of Commonwealth Attorney J. B. Snyder a special grand jury will be called to take care that threatened breaches of the prohibition law during the Fair may be properly dealt with.

John Woodward of London, Ky., coal operator, merchant and especially politician, was here Tuesday. Mr. Woodward is chairman of the Republican Party in his own section and is working hard for Harding.

A practical woman said to-day, "Why, Mrs. England, we no longer will have to go to Louisville to buy our cloaks, suits, dresses and skirts for you have just as up-to-date goods as we can find in the city and priced only half as high." Now, did not she display common sense?

Rev. Joe Sherous closed the protracted meeting at Rockhold Sunday. The meeting was very successful and the congregation showed its appreciation by subscribing \$50 for Mr. and Mrs. Sherous and threw in about \$228.00 for the completion of the AdventistChristian Church. Mr. and Mrs. Sherous are now going to Wofford, Whitley County.

LOGGING CONTRACT

The Importance of Having Your Child's Eyes Examined Before Starting to School

School Opens In Ten Days

Your child will soon be starting a new school term, and of course you are interested. But many parents who consider no sacrifice too great in order that their children may have a good education, seem to forget the imperative need for good Eyesight.

Constant scowls and frowns, especially on the faces of the young, are usually looked upon as indications of a mean, obstinate, stubborn disposition, when the truth of the matter is that these marks of disfigurement are generally due solely to an effort to see better.

Eyestrain is the cause; and when the cause is not remedied, the frowns become permanent and mar the person's appearance for life.

Defects in children's eyes, if cared for in time, may frequently be overcome by wearing "PROTECTIVE GLASSES" during their school days.

Don't blame the child for poor reports at school, for bad disposition and a general lack of interest in everything unless you know the eyes are right.

You are responsible for the sight of your child and should take steps now to see that he or she is not handicapped in school work by defective vision.

The signs of defects in children's eyes are not perhaps very pronounced, but they are readily recognizable, and in the interest of the little one's future they should receive immediate and proper attention.

The eyes of all children should be examined at least every year, as in this way only is it possible to determine whether eyestrain exists or not.

If glasses are not needed, we'll very gladly say so.

And now, during the vacation, inconvenience of a call is lessened to you.

HAS WILLIAMSBURG FOUND THE SAME?

The Answer Is Found In The
Straight-Forward Statement
A Williamsburg Resident

We have been reading week after week in the local press of Barbourville citizens who have been rid of distressing kidney and bladder troubles by Doan's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well-known and respected resident of Williamsburg will set this doubt at rest.

L. E. Martin, plumber, River St., Williamsburg, Ky., says: "My kidneys were too free and they acted irregularly. I suffered from a soreness and dull ache across my back. I used Doan's Kidney Pills, and they regulated my kidneys."

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

HOW TO BECOME A NURSE

Any woman with intelligence and "motherly" instinct can learn to be a practical nurse and earn from fifteen to twenty-five dollars a week. If you cannot spend three years in a hospital or are past the hospital age, study a common-sense book, called "Nursing in the Home," by Lee H. Smith, M. D. This book is written in a way that is easy to comprehend. It will teach you how to recognize different diseases; how to take temperature; how to care for fever patients; how to give baths; all about the sick room. It treats of burns and scalds, broken limbs, bleeding from wounds (bandaging) drowning, fainting—almost every contingency is covered.

Many pages are devoted to Hygiene, Anatomy, Physiology and Medicine. It contains advice for mothers and tells how to care for infants.

This 500-page book, bound in handsome red cloth, is worth \$2.00 but for a limited time can be secured by sending fifty cents to the publishers, World's Medical Press, 652 Washington Street, Buffalo, N. Y. V. 1-Adv.

Saved An Operation

MR. W. F. NELSON, a merchant of Hixson, Tenn., says: That the daughter of one of his neighbors, Mr. James Roberts, was in such a condition with female trouble that an operation was advised, and the young lady was sent to Chattanooga for its performance. She dreaded the operation, and STELLA VITAE having been recommended, decided to try that first. She has taken six bottles and is happily on the road to recovery. She is able to do her usual work and is in better health than for years before, but continues to use it. She writes: "STELLA VITAE will do all you claim." Her father says "She began to improve at once, after taking STELLA VITAE."

Goodyear Mileage—and Tires for Small Cars

A well built tire yields much more mileage for each dollar of cost than a tire purposely made to be offered at a sensational low price; buy the tire, not the price.

Built to deliver exceptional mileage at exceedingly low cost, Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, save inconvenience, disappointment and money.

Their value results from the application of Goodyear experience, expertness and care to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for the real worth and endurance that Goodyear builds into them.
